Docket No. RM2011-3

ORDER SCHEDULING SECOND TECHNICAL CONFERENCE

(Issued June 27, 2012)

In response to Chairman's Information Request No. 2 in this docket, the Postal Service filed a Scoping Study on May 25, 2012. The study is an outgrowth of the technical conference held on January 12, 2012. It evaluates the feasibility of using various data resources and modeling approaches to updating the city delivery carrier street time variability model.

A second technical conference will be held August 15, 2012, at 10:00 a.m. in the Commission's hearing room. The purpose of the conference, which is open to the public, will be to review and discuss the tentative conclusions and recommendations contained in the Scoping Study, and to be briefed by the Postal Service on the progress that it has made toward the objective of updating the city carrier street time variability study since the Scoping Study was prepared.

It is ordered:

A technical conference as described above will be held August 15, 2012 at 10:00 a.m. in the Commission's hearing room.

Shoshana M. Grove
Secretary
